## Custom Cuts by Summit, manufacturer of modern HO & N scale structures and accessories

Custom Cuts by Summit is your new supplier of modern HO & N scale structures and accessories for your model railroad. Our goal is to supply modelers with modern building kits like motels, restaurants, fast food places, strip malls, gas stations etc.

All kits are milled in white or black styrene plastic with clear acrylic window glazing and include various roofing materials such as LaserKit shingles or Plastruct or Vollmer Clay Tiles, self-adhesive decals and detailed assembly instructions with pictures. All parts fit together but may need light sanding at joints for cosmetic reasons. All models need painting, so some model building and painting skills are required.
